

CFPB Financial Coaching Delivery Sites

Our financial coaching initiative provides guidance to recently-transitioned veterans and vulnerable families in places where they're already going for help. We've joined forces with the Department of Labor (DOL) and more than two dozen nonprofit social-services providers to place 60 certified coaches in DOL [American Job Centers](#) and community-centered nonprofits across the country. These professionals will provide free one-on-one coaching to help consumers craft a personalized plan for financial success.
